

Final Remarks

The elements of claims 4 and 9 indicated as allowable have been respectively added to claims 1 and 8. Claims 4 and 9 have been canceled as have claims dependant thereon.

As such all remaining claims should now be allowable.

However, should the Examiner have any further questions or concerns the Examiner wishes to address by Examiner's amendment by telephone or otherwise, or should the Examiner have suggestions to more clearly define the subject matter of the claims to more clearly define the patentable subject matter, the Applicant's attorney would be most receptive to such.

Respectfully submitted,

Donn K. Harms
Reg No 38,911
Attorney for Applicant
